WORKSHOP 1

Developing and Implementing MI-Consistent Practices in Research and Clinical Settings. ([William R. Miller](#) & [Theresa Moyers](#)).

This workshop is for those interested in implementing high-quality MI practices in research and/or clinical settings. It will distill current knowledge and experience relevant to hiring, training, supervising, coaching, coding, and quality assurance for MI-consistent interventions.

WORKSHOP 2

Implementation Science and Motivational Interviewing - Researchers' Brainstorming/Planning Forum. ([Gregory Arons](#), [Steve Martino](#), [Sylvie Naar](#)).

This half-day pre-conference workshop/planning forum is being offered on Sunday afternoon at *no cost* to conference participants as a public service intended to increase awareness, knowledge and ability in designing, funding, and implementing grant-funded research using current implementation science models and methods, such as EPIS. Various funded projects will be reviewed regarding goals, design, and implementation. Practical tips and traps will be presented regarding research design, funding mechanisms, and grant submissions.

Plenary - Opening / MI & Implementation Science

Video excerpt

Gregory Aarons – *Leadership and organizational change interventions to boost Motivational Interviewing fidelity in community mental health and substance abuse organizations*

Steve Martino - *See One, Do One, Order One: Making MI Easier to Implement on Medical Inpatient Units?*

Sylvie Naar – *TMI (Tailored Motivational Interviewing or Too Much Information!)MI Implementation in Multidisciplinary Adolescent HIV Clinics*
